

1. Q: Should there be a Section L with the solicitation for North Carolina OA CTS?

A: There is no section L for a commercial acquisition. All of the instructions are in the clauses of the solicitation document itself.

2. Q: What is the page limit specification for the Technical Approach, this is not noted in the RFP?

A: There are three questions that have two parts to each. There is no page limit specified because the answers were requested to be innovative; however, if the response to each part of the question can be limited to two pages that should be sufficient. This would be a total of 12 pages.

3. Q: The RFP does not include a request for Past Performance, nor a reference for a page limitation for this section. Is Past Performance to be included and what is the page limit, or is it the government's intent to use the CPAR for this information?

A: Past performance shall be evaluated in accordance with the procedures in 13.106 or Subpart 15.3, as applicable. The clause FAR 52.212-1(b)(10) has the instructions to offerors as it relates to the submission of past performance. Please limit the submission to 5 pages.
